Never Pay money for Time-bound/Duration based advisory service...

Only one of it's type of service in whole India.

We give Assurance of profit, *1st time in India!*

Get Assured Profit of Rs. 1,00,000 in Rs.20,000

Only!

An Offer which will make you forget all other COMMODITY-MCX-NCDEX call service in the market!

It is a unique service being offered to stock traders @ *Rs 20,000/- for an assured profit of Rs.1,00,000 (one lakh)* . Which means that subscriber pays once and until and unless subscriber makes net profit of Rs.1,00,000, his subscription period does not expire.

FEARUTES, RULES & GUIDELINES: It's Simple !

- The subscriber will require to trade as per quantity told by us. However we do not do tell to trade in large quantity but moderate to low quantity as per traders' margin. We prefer trading in 1-2 big lots of gold or silver, or 2-4 lots of mini gold or silver or 2-4 lots of copper and/or crude oil futures.
- Live/positional Trading Calls will be provided through SMS with clear Entry Level, Stop Loss Level and Targets. Mainly calls will be of intraday nature. Positional calls will be maximum btst/stbt to 1 week holding maximum.
- Each Trade will be monitored and follow-up calls will be provided, if required, to modify Stop Loss, book part/ full or early profit/ loss.
- At the end of each day, profit/loss account of that particular day will be sent by SMS.
- *Subscription will continue until Subscriber makes net profit of Rs. 1,00,000 (one lakh). Unlike other advisors, we will NOT stop your service on completion of your duration, but for us in this service the duration is THE NET PROFIT and not the days.*
- There will be generally 5-10 call per week.
- There will be 1.5-5% profit in each call depending upon volatility and risk-reward ration.
- Usual holding period of each call will be intraday, btst, stbt to maximum one week. We will give calls considering the margin exposure a normal broker gives to keep a position for one week period.
- Usually, we will send msg to trade in lot size as discussed. However, any customer who want to trade in less or more lots must talk with us and discuss about his margin and trading capacity so that we can send him trading msg accordingly.
- As you already know, the quantity of trade is given by us, which must be strictly adhered to by the member.
- It the NET and not Gross: We will deduct the points of loss.
- Subscription will be over as soon as Subscriber makes Net gain of Rs.1,00,000.

- Thus the subscriber makes Rs.1,00,000 on fee of Rs.20,000, which is profit of 5 times on our fee on as low as 1big lot or 2 mini lots of total exposure.
- Please read our guidelines, for better trading. Also consult our executive for more guidelines for better trading.

MORE ABOUT OUR COMMODITY TRADING ADVICE SERVICE:

- **Features:**
- Clear Entry, Exit and Stop Loss, Targets and Profit booking levels are communicated.
- Complete follow up of each and every trade until it is closed in full.
- Our inbuilt money management processes and tools *ensure that the profits are maximum when we earn and the loss is minimum when we go wrong.*
- The customization features of each of our services gives freedom to users to get the services for commodities and in the way they want, in case they are merchants or trades in selected commodities.
- An **efficient set up of system and manpower which keep eagle eye on international news and developments which** affects commodities prices worldwide including in India.
- **Domain fundamental knowledge of each commodity with** separate analysts' team for different commodities packs gives our customers an edge over most following and having knowledge of only technical analysis.

Our System:

- The MEGHA INVESTMENTS AND RESEARCH COMMODITY ANALYST TEAM is equipped to provide comprehensive trading guidance for trading on MCX and NCDEX, NMCE and in physical as well.
- We also provide consultancy not just for trading on domestic commodities exchanges in Rupee prices but also in dollar terms for trading on COMEX and NYMEX and such other global exchanges and OTC markets.
- We help you with the complete process of identifying a potential trade, entering into that trade, managing the trade and booking profits at the end of that trend. This together with our built in risk & money management system will help any trader/hedger or merchants, investors extract optimum profits from the markets.

- Our specialize team of commodity market analyst who study commodities markets daily, in fact minute after minute give complete follow-up of each and every positions/calls.

About Our Research Team:

- All paid and free content and advice is provided by our team of Qualified and Experienced Commodity Professionals.
- The research team comprises of MBAs, CAs with international Banking and Finance domain expertise. Apart from their strong educational background they have relevant experience and Sound understanding of Economy, Market Trend and fundamentals of various commodities.

Uniqueness of our Commodity Trading Calls:

- We believe that when it comes to trading in commodities, fundamentals count as much as technicals. So with a team of sound fundamental knowledge built on qualification experience and intellect we have been able to give better results than those only depending on technical analysis. This follows our strong belief that midterm and long term trend knowledge is important to forecast shorter term and intraday moves.
- *Our success ratio has remained consistently well above 80%. Although at times when markets turn against our advice, we make our client cover position at almost cost to cost or at minimal loss. This technique helps tremendously in preserving trader's capital, saving earned profits, boosting self confidence and raising our own accuracy levels as well.*
- We give precise entry level in terms of prices, range, above or below levels. Similarly exit levels are given.

- Messages in Gujarati and Hindi language are also given to those who wish to receive messages in these regional languages.
